FOR IMMEDIATE RELEASE 1/31/18

Deer Park Renovations Begin

The city of Cleveland has begun to give Cleveland's Deer Park a fresh, new look.

Cleveland Public Works crews are in the process of installing a sidewalk system in the park this week in advance of other new features planned for later this year.

Deer Park's theme will be a "backyard experience". The renovation plan will use natural elements, such as a creek that flows through the park, to recreate a backyard experience and a place for children to play and explore nature through an engaged environment.

Deer Park is heavily used by the surrounding neighborhoods, area school systems and other citywide groups. The park's pavilion is rented about 150 times each year.
